

## AND Marabouparken Guestroom Residency 2018

### Terms and Conditions

(draft!! To be discussed and agreed together in face to face discussion :)

#### AND's terms and conditions (to be negotiated)

- Budget and terms and conditions needs to be made transparent and public
- No “local community engagement” in projects that last under 3 years (not fixing a problem in the area)
- “Inreach as much as “outreach”
- We become visible on our own terms
- Swedish language classes (guilty gestures) many languages in the room
- Rosalie doesn't travel by plane
- We need a payment plan and contract/agreement

1. That the time and budget is useful in the development of your practice
2. That Marabouparken support your collaborative working in useful ways
3. That we discuss how best to work together and continue to develop this over the duration of the Guestroom and beyond
4. That the timespan of the Guestroom doesn't indicate the deadline for the process.
5. That there is a feedback loop between the residency and the institution in how the institution can learn from your practice, and their is a materialisation of the reflection.
6. That during the time you are here your work can be shared in different ways with mutually interested people via public and discreet meetings and events\_
7. That there is a plan for how to use the physical residency space that can be communicated to us so we can set that up for you. The space is used as an information stand for the boxing and AND's boxes are open to the public in the unboxing room, located in a repurposed office space.
8. How the space is used over the time is open and can be changed or let go
9. That some of your material, publications can be present in the space (unboxing room) for people to get to know your work through
10. That there is an agreed way of communicating your work that can allow a visitor, audience a way to gain insight into your process of what you will develop here and how they might be able to get involved via our website, social media and some kind of printed information ready in March.
11. Time for swimming in lakes
12. Discuss anything that comes up that feels uncomfortable and find solutions together, making time for reflecting and updating terms and conditions.
13. No cartwheels for boxing warm up

Marabou budget is 100.000 SEK

We set up 6 boxing classes for the public (women and trans?).

Poster in 3 languages Swedish arabic, english.

We give / facilitate 3 talks.

Jenny Richards (curator Marabouparken Konsthall), Rosalie Schweiker & Eva Weinmayr (AND)
